

QUESTIONS: RFP Temple Recreation Pavilion Upgrade and Branding

1) Is the City providing the logo? If so, what size is it, and what is it made of? *We will provide the file. We request a metal sign for the gable with the Temple Rec logo. The existing Powell-Luke sign measures 13 feet wide. This sign will be moved up, and the Temple logo sign will be centered below it. The sign should be at least 6 feet in length. (See Exhibit 10.) The surveillance signage will be relocated.*

2) What are the 36" columns to be made of? And what dimension is the 36" (i.e. circumference?) *We want the posts encased in stone (from the base to 36 inches). If you have a different idea, please add that as an alternative. (See Exhibit 13)*

3) Which post needs the concrete repair? Is it the back left post by the field? *Yes. That corner was broken off, and a few other smaller areas. Please see attached pictures, (Exhibit 7 & 8)*

4) Please clarify the location of the area that needs seed and straw? *Any grassy area disturbed or affected by the renovation.*

5. The RFP calls for 36" columns at the four corners. Is this referring to 36" tall pipe bollards, or is there another spec? *Another spec. We want the posts encased in stone (from the base to 36 inches). If you have a different idea, please add it as an alternative. A picture is attached, see Exhibit 11.*

6. The RFP calls for a logo on each gable end: Is the use of metal signage acceptable, or do you prefer hand painted logos? *Yes, metal signage is acceptable.*
